

SAFETY & SANITATION GUIDELINES

In opening our building for the Education Program, we are following the guidelines issued by the State of Indiana, the CDC, and are in compliance with local law.

The following precautions have been instituted to promote the health and safety of our parents, students, volunteers, and staff:

- Class-room capacity is limited to allow for the observance of social distancing guidelines
- Masks are required upon entry and during all in-person sessions
- Paperless registration and paperless payment options
- All will undergo a wellness temperature check upon arrival
- Hand sanitizing stations have been installed throughout the building
- High touch surfaces will be monitored and regularly sanitized
- Increased building cleanings are scheduled
- The lobby and building are closed to the general public
- We ask that students do not attend class if they have a fever, cough, or respiratory symptoms, or have come into contact with someone who is or was sick.

We remain committed to providing an excellent educational experience at Chicago Street Theatre. In doing so, our precautions may change to remain current with the guidelines issued by the State of Indiana, the CDC, and in compliance with local law.

We thank you for your patience and continued support.
